

About the Annual Course,

The Board of Upper Limb Committee has decided to organize an annual educational two-days course.

During this course there would be one day with lectures and live surgeries and the other day with cadaver workshops.

The first course was held in Athens in October 2008, and this has been a great success.

The next course will be held in Barcelona, Spain, October 30-31, 2009.

You will find more information about this specific course very soon on the ESSKA web site under the Upper Limb Committee section.

Thank you and do not hesitate to contact us for any further information or assistance,

Ettore TAVERNA
ULC President
