

Table of Contents:

Title: ***Patellofemoral Pain, Instability,
Arthritis Clinical Presentation,
Imaging, and Treatment***

Preface: Lars Engebretsen
 Niek vanDijk

Introduction: Stefano Zaffagnini
 David Dejour
 Elizabeth Arendt

Chapters:

1. Pathophysiology of pain – **Vicente Sanchis-Alfonso**
2. Pathophysiology of instability –**Stefano Zaffagnini**
3. Clinical Presentation of patellofemoral Disorders – **Ricardo Varatojo**
4. Physical examination of the patellofemoral patient –**Jack Valloton**
5. Standard x-ray evaluation – **David Dejour**
6. Measurements of Patella Height – **Elvire Servien**
7. Stress x-ray evaluation – **Robert Teighe**
8. CT scan evaluation – **David Dejour**
9. MRI analysis of instability factors – **Massimo Berruto**
10. MRI of the patellofemoral Articular Cartilage – **Constance Chu**
11. Scintigraphy imaging and quantitative computed tomography in patellofemoral disorders – **Ahmet Turan Ayden**
12. Gait analysis for patients with patella femoral disorders - **Georgulis Tassos**
13. Conservative treatment of patellofemoral pain – **Lynn Snyder Mackler, Susan Werner**
14. Latrogenic anterior knee pain associated/after with knee surgery – **Juri Kartus**
15. Lateral Release and lateral facetectomy : review – **Peter Verdonk**
16. Arthroscopic medial reefing in acute patella dislocation – **Ranier Siebold**
17. Medial reefing in chronic potential patella instability – **Alfredo Schiavone Panni**
18. MPFL Anatomy and Technical Considerations – **Elizabeth Arendt & Donald Fithian**
19. Anatomic study on MPFL reconstruction – **Philip Schottle**
20. Indications and Surgical Technique of Medial Patella Tibial Ligament – **Maurilio Marcacci**
21. Medialization of tibial tubercle – **Vincenzo Condello**
22. Distalization of tibial tubercle –**Elvire Servien**

23. Trochleoplasties
 - a. Deepening trochleoplasty – **David Dejour**
 - b. Proximal open trochleoplasty – **Lars Peterson**
 - c. Arthroscopic deepening trochleoplasty – **Lars Blond**
 - d. Elevating trochleoplasty – **R Beider**
24. Rotational osteotomies for patellofemoral disorders – **Robert Teighe**
25. Long term results after ACI in lesion of patella femoral joint – **Lars Peterson**
26. Isolated patellofemoral osteoarthritis – **David Dejour**
27. Non-operative treatment of patellofemoral arthritis – **Ronald Grelsamer and Jenny McConnell**
28. Anteromedialization in patellofemoral arthritis – **John Fulkerson**
29. Isolated patellofemoral osteoarthritis prosthetic indications – **Johan Bellamans**
30. Rehabilitation after patellofemoral surgery: An International Survey
Lynn Snyder Mackler
31. Errors and complications from patellofemoral surgery – **Frederik Almquist**
32. Biometry of the femoral groove in foetuses. Anthropological and clinical interest – **Jean-Luc Jouve**
33. Patellofemoral disorders in the skeletally immature patients – **Vojtech Havlas**
34. Trochloplasty in the skeletally immature patients – **Jean-Luc Jouve**
